**Make it Digital** students will be working with award winning design and innovation agency Sea Communications.

Sea specialise in designing digital services and helping people to access support services and employment opportunities. They will provide mentoring throughout the 4 week programme and show you how to produce creative digital content.

Sea have enlisted the help of specialist youth recruitment company Junction 24 who will work with you to understand your strengths, plan your future and help you find real work opportunities after the course.

---

**Make it Digital** is a 4 week programme teaching you digital skills and helping you plan your future.

This is a free opportunity for anyone aged 16 - 18 not in education, employment or training.

The course is only two days a week so does not affect JSA payments.

Next course date:
